

Introduction

Our polyethylene chaise longues combine modern design and cutting-edge technology, offering unparalleled comfort and durability in any type of environment. Made with high quality polyethylene, these seats are ideal for indoor and outdoor environments, guaranteeing excellent performance in terms of resistance and maintainability.

Product Specifications

- Material: High-density polyethylene (PE), non-toxic and 100% recyclable
- Production process: Rotational molding
- Features:
 - Lightweight and easy to move
 - Resistant to extreme temperatures (-60 °C to +80 °C)
 - Protection against UV rays
 - High tensile strength
 - Floating design, suitable for use in water

Instructions for Use

1. Installation and Placement:

- Choose a flat surface for installation.
- Place away from direct heat sources to avoid deformation.

2. Maintenance and Care:

- Clean with a damp cloth and non-abrasive detergent.
- Do not use solvents or abrasives.
- Periodically check the structural integrity, especially if used frequently in water.

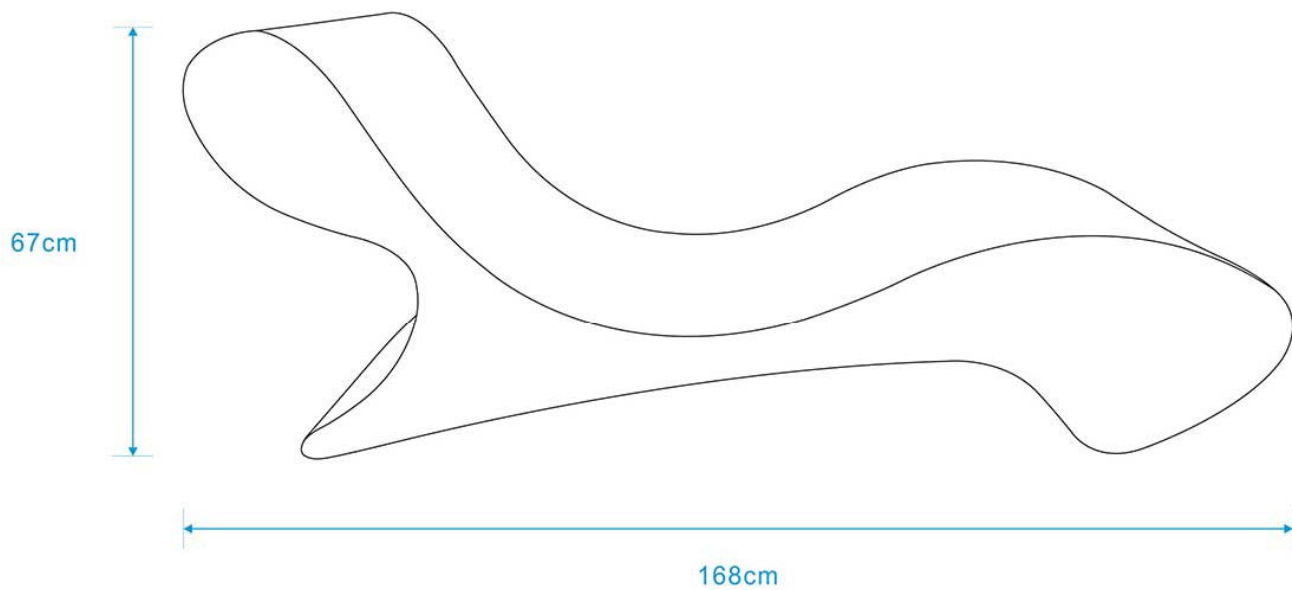

3. Storage:

- When not in use, store in a dry place away from direct sunlight.
- In case of extreme temperatures, protect with properly insulated covers.

Recommended Use

Our chaise longues are perfect for a wide range of environments and occasions, such as:

- Home use: garden, swimming pool, home bar, bedroom.
- Events: outdoor parties, theatrical performances, weddings.
- Entertainment: bars, discos, karaoke, beauty salons, spas.
- Catering: hotels, restaurants, cafeterias.
- Leisure activities: beaches, parks, marine docks.
